

USAMMA Materiel Fielding Division

Medical materiel fielding is our duty, our focus, and our Path to Excellence.

This process involves our expertise in three stages:

PRE-FIELDING STAGE

- USAMMA works with your unit to assess and determine medical materiel requirements.
- A fielding regional manager works directly with your unit. We help review and validate your unit's medical materiel shortages and priorities.
- To ensure a successful fielding, a Memorandum of Notification is published, and a Logistics Support Agreement between the receiving unit and USAMMA is produced.
- We coordinate with Assembly Management, Maintenance Operations Division, Force Integrators and gaining unit's Points of Contacts.

FIELDING STAGE

- We field medical materiel to the unit and documentation is provided to maintain property book accountability.
- We specialize in 100% joint inventory and equipment technical inspection.
- Unit & fielding team work together through every step of the fielding process. Fielding Team provides electronic fielding results for the gaining unit.
- Stateside Natural Disaster Medical Logistics Support within 24 hours by the Medical Logistics Support Team (MLST).

POST-FIELDING STAGE

- Review & coordinate ship short packages to minimize on-hand shortages.
- Post-Fielding inventory is maintained in USAMMA's Theater Enterprise Wide Logistics System (TEWLS).
- USAMMA provides the most comprehensive medical materiel services to field, modernize, and sustain medical units throughout the Department of Defense.
- MLST capable of deploying worldwide within 96 hours.

Our Medical Materiel Fielding Process is Our Path To Excellence

USAMMA Materiel Fielding Division is the premiere provider for medical materiel life-cycle management and logistical solutions for today's war-fighter.

We work with our customers to respond to and support their medical materiel needs.

We proudly supply the most comprehensive medical materiel services to field, modernize, and sustain medical units throughout the Department of Defense.

We are USAMMA and we are ready to support !
