### Mission Needs Statement

A requirement in AR 750-43, 3 Nov 2006, identified PM TMDE as the responsible organization to host the DA TMDE preferred items list (PIL) and making the list available to the Army. The listing was formerly available on the US Army TMDE Activity (USATA) website prior to this changeover of responsibility on the effective date of the regulation, 3 November 2006. This gives rise to the following requirements.

1. Develop a list of test equipment that is type classified standard and available for issue. (Part of the TMDE Register identified as Standard TMDE)
2. Develop a list of alternate equipment that is not type classified but is used in the US Army. (TMDE Register)
3. Provide a means for organizations to access this information, determine usability, and if required request authorization to purchase test, measurement, and diagnostic equipment to meet mission requirements.

PM TMDE developed this web based solution to meet these requirements. The web database will include a listing of all equipment purchased by US Army elements. The listing entitled "US Army TMDE Register" will provide a means for LCMCs, PEOs, PMs, Combat and Material Developers as well as TOE and TDA organizations to research TMDE availability to include detailed specifications to determine equipment applicability and availability.

Additionally, the website will provide a means to submit required documents and information to request acquisition approval from PM TMDE. Information submitted will be placed in a folder (pending approval). Information can be entered directly into the database from the website. Once acquisition approval is provided and the organization provides exact specifications and information required, the item may be included in the TMDE registry.

Items that do not meet preferred item requirements will not be listed as DA TMDE Preferred Items List (PIL). The registry will also provide equipment listings by MACOM, providing the additional benefit of providing a means to reduce make and model

Click on CAC (Common Access Card) Login button to log in using your CAC.

### THIS IS AN ARMY/DOD WEBSITE AND COMPUTER SYSTEM.

This website is provided as a public service by the Army Small Computer Program. Information presented on this website is considered public information.

No personal information about you is collected when you visit our website unless you choose to provide that information. Contact information collected is not shared with any other organization and is not viewable by unauthorized personnel. Personnel authorized access to contact information include specific command and approval authorities.

DOD computer systems may be monitored for all lawful purposes, including to ensure their use is authorized, for management of the system, to facilitate protection against unauthorized access, and to verify security procedures, survivability, and operational security.

**Edit** **DELETE Record**

Click the Edit button to complete entries on the form for equipment that you have chosen from the equipment list or previously entered.

Click the Delete Record button to remove an item from the request. If the only remaining item is removed, the request itself is removed. Items cannot be removed after the request is submitted and reviewed by the command authority or approval authority.

The screenshot shows the TMDE Register web application interface. On the left, there is a navigation menu with buttons for 'Acq. Procurements', 'Support Requests', 'Contact Information', 'Mission Statement', 'Privacy Statement', 'User Feedback', and 'Application Help'. Below the menu are several circular logos, including 'PD TMDE', 'PROJECT MANAGER PM JCSS', 'PEO CS&CSS', 'MSD HOME', 'AKO ARMY ONLINE', 'U.S. ARMY', and 'BINCS'. The main content area is divided into several sections. At the top, there are three columns of contact information for SFAE-CSS-JC-TM-TEMOD. Below this is a form for entering a tracking number (101093001) and selecting a request. A table below shows equipment details for a 'Refectometer, Opt. Time Domain' with LIN RDD T24009 and Qty Unit Cost. The 'Apply - Save' button is circled in red. Below the button is a 'MISSING INFORMATION' warning. The form contains several fields, some of which are highlighted in blue to indicate they are mandatory. A blue arrow points from the 'Apply - Save' button to a text box at the bottom of the page.

**Fields highlighted in blue are mandatory (*must be* filled with required data). A request cannot be submitted without required information.**

**All other fields shall be filled with the maximum extent of data as possible.**

**Click “Apply – Save”**

You can check status of your request periodically by looking for these letters (A, C, S) to appear. Once your request is approved, a “thumbs-up” appears and you should receive an approval memo for your request by email from the PD TMDE. Please follow the instructions in the memo carefully. If your request is rejected, a red “x” appears and you should receive a rejection memo from PD TMDE with appropriate comments.

# Example of TMDE Acquisition Approval Memo

This is an official electronic correspondence from the Assistant Product Manager (APM), Test, Measurement, and Diagnostic Equipment (TMDE), General Purpose Electronic Test Equipment (GPETE) Program. This is official approval notification for the items listed in this document. A memorandum with signature is available on request.

SFAE-CSS-FT-T-TEMOD

23-May-07

MEMORANDUM FOR COMMANDER, Tobyhanna Army Depot (AMSEL-LC-TY-ME-N), Tobyhanna, PA 18507

SUBJECT: Acquisition Approval for Items Listed, Request Tracking #070007001

1. The following item(s) is/are approved for acquisition:

QTY	MFR/MOD NO. NOMENCLATURE	ITEM TRACKING # IS ITEMS SUPPORTED?
3	Aeroflex / 2030 Signal Generator 10KHz to 1.35GHz	0700070010122 NO

2. In accordance with Army Regulation 750-43, Army Test, Measurement, and Diagnostic Equipment Program, 14 December 2004, chapter 3 and 4, the approved acquisition control number is pertinent only to the procurement of the TMDE identified in paragraph 1. This is an acquisition approval only. The originator is required to ensure logistics supportability of the approved item prior to fielding of the actual procured item of TMDE.

3. If you require organic TMDE support for the items listed above, submit your request in accordance with AR 750-43, dated 14 December 2004, paragraph 6-9 on page 25 and TB 750-25 appendix B.

4. We request originator/contracting officer provide the following information, citing this acquisition memorandum, for the item within 60 days of contract award. The following items are required 1) procuring agency 2) unit price 3) type quantity 4) manufacturer, 5) manufacturer's model number 6) contract number 7) type of funds used and 8) manufacturer data sheet.

5. This approval does not constitute or imply sole source procurement authority.

6. The US Army TMDE Activity's current capability to provide support is indicated in the above table as "IS ITEM SUPPORTED?".

7. The Point of Contact is Adam Roap, SFAE-CSS-FT-T-TEMOD, DSN 897-2936, or commercial 256-313-2936, [adam.a.roap@us.army.mil](mailto:adam.a.roap@us.army.mil).
